

Assistant & Handler Portals

- The JuggleJoy logo on the top left currently takes you to the website homepage, it should take you to the same page as “Dashboard” which is found when you click on the username.
- Under the Status column, all new tasks should be labelled ‘New’ not ‘With User’.
- Within Ongoing tasks, change the tab label ‘Task Journal’ to ‘Messenger’
- The progress bar under the SLA should represent how long it has left using the deadline set by the user. For low set to green, medium set to yellow and red for close to breaching SLA (3 days to go) and stays on red for anything that has breached SLA.
- Under the Priority column, there shouldn’t be an “expired” option, just low medium and high. Here is a previous message to Amruta via Slack.

Hi Amruta,

Answer to your questions

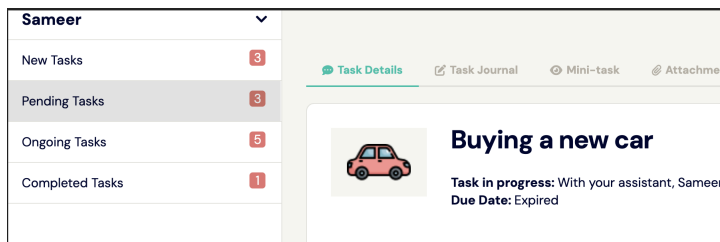

2, The user will not be asked the question. I would like to setup an automatic conditional formatting whereby tasks are due within 3 days of the deadline (users are asked for the deadline when they create a task) that will be treated as urgent, then the following 5 days will be treated as medium, anything else 9 days or more will be low.

Using our brand colours of red, yellow and green to represent high, medium and low respectively. (edited)

- Remove the online chat bubble, it is only for the customer-facing side.

Assistant Portal

- New Tasks and Pending Tasks are the same thing. They are tickets that have been raised by users and waiting to be picked up by an assistant. So, just merge those pending tasks with the ‘New Tasks’.
- On the Assistants dashboard remove Pending Tasks, so you are only left with New Tasks, Assigned and Completed.
- When the assistant clicks on a specific task, can we highlight whether the ticket falls under New Task, Ongoing Task or Completed Tasks? Like example below

- Within a specific ongoing task, once you click on the 'Task Journal' tab swap the positions of 'Private note' and 'Provide Options'

Handler Portal

- The online chat icon at the bottom right doesn't need to be active on the handlers portal.
- Handlers can add private notes, and send messages to the end user, can you make (currently labelled) the 'Task Journal' tab available for Handlers too?
- On the Private note tab, can we sort by the latest message at the top? Also, put the date and time of the message next to the agent's name in grey.

User Portal

- There were a few typos with the Q&A provided, please request access to Google Sheets for the latest Questions & Answers (nothing has changed apart from typos correction) [+ Categories Questions/ Websites](#) . This Q&A is for each category and questions that follow when the user is submitting a task.
- Once the user clicks on their initials (top right) reword **My Profile** to **Settings**
- On My Profile page, change the option 'Dashboard' to 'Back to Dashboard'
- Within the Draft tab, if the user types a task within the 'Brain dump your to-do list here...' section and presses enter it should automatically create a task. The user then can click on the created task to add more details, however at the moment as soon as I press enter it takes me to add more details page.
- Amend tasks within the Draft tab, currently if we click on a task it shows us details about the task, let's keep that as it is. However, I have added two buttons 'Edit task' & 'Submit task' buttons. Edit task allows the user to add as many details and can always come back to it to add more details. Within the edit task, they will be provided with all the questions the same as someone adding new tasks.
They are also provided to submit the task directly without opening the task. However, if the task is incomplete they will get a popup notification

“To proceed, ensure all required fields are filled out. Edit task or Cancel”

The screenshot shows a task management interface. At the top, there are tabs for 'Draft', 'Ongoing', and 'Completed'. Below the tabs, a message states: 'This section is designed to help you unload all of your tasks and ease your mental burden. Please note that your assistant won't be able to see or take action on your tasks found here, until you provide more details and submit it by pressing Create Task.' Below this is a text input field with the placeholder 'Brain dump your to-do list here ...' and a button 'Press enter to add new task'. The main task card shows a calendar icon, a 'Draft' status, the task title 'Buy christmas present for dad', and two buttons: 'Edit task' and 'Submit task'.

- Inside the 'My Profile' page, need to have the option for the user to manage a subscription and it should be labelled as "Subscription".
- The page for the Subscription page should be like below.... Make sure it links to Stripe.

The screenshot shows a 'Subscription' page. On the left is a sidebar with links: 'Back to Dashboard', 'My Profile', 'Subscription', and 'Change Password'. The main content area has three sections: 'Current Plan' (Price: £ 99, Next Renewal date: 24 May 2024, with 'Pause Plan' and 'Cancel Plan' buttons), 'Payment Method' (Price: £ 99, Next Renewal date: 24 May 2024, with a 'Replace Card' button), and 'Billing Address' (14 Stevens House, London, E16 7AR, with an 'Update Billing' button). Below these is an 'Order History' section with a table of receipts from the last 12 months.

DATE	PLAN	PAYMENT	RECEIPT
24 May 2024	Monthly sub	£ 99	View Invoice
24 June 2024	Monthly sub	£ 99	View Invoice
24 July 2024	Monthly sub	£ 99	View Invoice

- Would like for the user to be able to pause and resume their subscription. Please follow the workflow used in this video for pausing subscription, <https://youtu.be/ZdtiN0K-X5E>
- Resuming subscription, <https://youtu.be/xAmznS8AOA8I>
- To cancelling the subscription follow this path

1

The screenshot shows a modal dialog box with a close button (X) in the top right corner. The title is 'We're so sorry to see you go!'. The text inside reads: 'We sincerely hope you've found joy in using Juggle Joy! Rather than cancelling, consider pausing your subscription payments. By doing so, you can rest assured that the price you initially signed up with will remain unchanged. This way, your account will remain open for whenever you're ready to return. We appreciate your support and look forward to welcoming you back whenever you choose'. At the bottom are two buttons: 'Pause Subscription' and 'Cancel Subscription'.

2

Before you go . . .

We genuinely value your input on your reason to unsubscribe. Your feedback is immensely valuable in guiding our efforts to enhance our service and ensure we cater to your needs and those of others with utmost care going forward.

The main reason in leaving us?

Specific reason for unsubscribing

Changed my mind

Cancel Subscription

If you cancel now, you can still access your subscription until next renewal date

The options for “ The main reason for leaving us? ”	For each option, the user chooses please provide further options in the next question “ Specific reason for unsubscribing ”
1. Cost-Related Reasons	a. Service cost is higher than expected b. Found a more affordable alternative c. Perceived value does not justify the cost d. Other (please, specify: _____)
2. Cost-Related Reasons	a. Service cost is higher than expected b. Found a more affordable alternative c. Perceived value does not justify the cost d. Other (please, specify: _____)
3. Cost-Related Reasons	a. Difficulties in navigating the app or interface b. Service too complex or not user-friendly c. Other (please, specify: _____)
4. Usability Issues	a. Dissatisfaction with the tasks completed b. Service did not meet expectations c. Needs not fully addressed by the service d. Slow response times e. Poor resolution of issues f. Other (please, specify: _____)

5. Service Performance	e. Switched to a service that offers more features f. Service recommended by friends/family seems better g. Found a different service that fits needs more closely h. Other (please, specify: _____)
6. Alternatives and Comparisons	i. No longer need the service due to lifestyle changes j. Service is no longer relevant to my current situation k. Other (please, specify: _____)
7. Change in Needs:	a. No longer need the service due to lifestyle changes b. Service is no longer relevant to my current situation c. Other (please, specify: _____)
8. Technical Issues	a. Persistent technical problems with the site b. Frequent downtimes or disruptions c. Security concerns with the service d. Other (please, specify: _____)
9. Privacy and Data Security	a. Concerns over data privacy and handling b. Apprehensions about personal data security c. Other (please, specify: _____)
10. Other Reasons	a. Personal reasons not covered above b. Would prefer not to disclose c. Other (please, specify: _____)

*with the above survey we may integrate it with 3rd party app so we can pause for now.

Website

- Registration page, Partner's email address should be optional currently set as required.
- Once the new user goes past the payment page and reaches the Registration Successful page, Please amend as below, it gives the user an option by creating a button to 'Skip to Dashboard' instead of booking a call.

Registration Successful

An email with a verification link has been sent to you. Please verify your email address to gain full access to your Juggle Joy account.

[Skip to Dashboard](#)

[Book a call](#)

Book a call with one of our founders to get personalised onboarding assistance and make the most of our services from day one.

- If the user then chooses 'Book a call', it should direct them to the integrated Calendly page
- Once a user clicks on 'Forgot password' and follows the email link to create a new password, the password requirement instruction doesn't appear as it does during the registration page. See below...

Create a Password*

Password

- ✗ Password must be a minimum of 8 characters long
- ✗ At least 1 number
- ✗ At least 1 Capital letter

- Blog page:
 - Create a randomised view within each blog between 50-200, currently static at 123.
 - Currently, the social media share icons, are not working at the bottom

- The dynamic greeting (Good morning/afternoon) we previously discussed seems to be working with the Indian time zone, it should be set to the user's current system time
- The links for Follow us on social media accounts are as follows:
 - Facebook: <https://www.facebook.com/jugglejoy/>
 - Instagram: <https://www.instagram.com/wearejugglejoy/>
 - Linkedin: <https://www.linkedin.com/company/jugglejoy>
- We don't need the users to verify their email addresses during the registration process. 2fa will suffice.
